The History Of Bilston Town FC – The Sequel !

Following the success of The History Of Bilston Town FC, Author, Jay Hearst has accepted our invite to compile a second book – “If Carlsberg did Football Clubs.....!” (A working title – perhaps!)

We are looking for memories, anecdotes, stories, most memorable games etc etc, from players – current and former – supporters, ex managers and/or committee members – former and present.

Ultimately, we want your stories. How you were first introduced to Bilston Town FC, those first impressions, why you maintain that affinity for the club, greatest players you recall, best goal, dodgiest refereeing decision! Furthest you travelled to watch them.

Were you there when Bilston lifted a trophy, as player, manager or supporter.

Groundhoppers, what is your memory/impression from visiting Queen Street?

Our aim is to obtain as many stories or anecdotes or memories as possible, compile and collate them, then publish them, giving as concise a reason as possible, as to why this football club is so special and retains such a special place for so many people.

Please, get your thinking caps on, and let us have your thoughts and memories as to why Bilston Town FC is such a special place to play or watch your football.

Email your memory, anecdote or story to either of the addresses above, and let's get this book written!
